

FOR IMMEDIATE RELEASE

CIMEA QUALIFIES AS
Global Recognized Organization
National Association of Credential Evaluation Services (NACES®)
Global Standards Program: Phase I

Atlanta, GA, August 20, 2020

NACES is pleased to announce that the Centro Informazioni Mobilità Equivalenze Accademiche (CIMEA) located in Rome, Italy, has completed Phase I of the Global Standards Program of NACES and can now be affirmed as a Global Recognized Organization (GRO).

NACES offers its Global Standards Program (GSP) to credential evaluation and assessment organizations located outside the United States that desire to further refine their practices in alignment with NACES' high-quality, research-based professional standards of methodology for credential evaluation and assessment services.

A NACES Global Recognized Organization (GRO) is not an official member of NACES; yet, it is one that applies the standards and principles of NACES. Its work demonstrates evidence of intent to comply with many of these standards. A GRO may go about actualizing these standards in different ways in its own socio-cultural-political-educational context.
